

SUSTAINABILITY STRATEGY

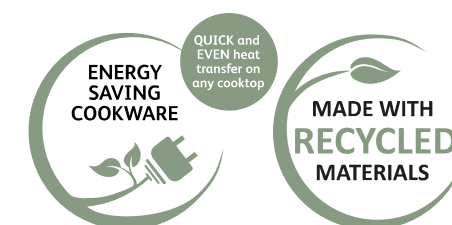

MOVING TOWARDS A SUSTAINABLE TOMORROW

At BergHOFF, we love our planet as much as you do. That's why we design durability, reusability and recyclability into all the kitchenware & cookware collections to minimize the impact of our products on nature. Examples are kitchen tools with double functions, jars that prevent food waste and smart cookware for more energy-efficient cooking.

We strongly believe in a total environment of saving energy, efficiency and time. The new generation BergHOFF kitchenware fits the needs of today's customers in a changing world. People today are looking for solutions to reduce the impact of the rising energy prices on their daily lives. BergHOFF is ready to respond to this evolution with new cookware series in different price categories. The new series are made with recycled materials, have a healthy ceramic coating without PFAS and are energy-efficient, which results in saving energy, time and money!

BergHOFF believes in functional product design in consideration of the 3R strategy of waste management, to move towards a sustainable tomorrow. Together we can make a difference and at BergHOFF we are implementing these 3R's step by step.

**REUSE
REDUCE
CYCLE** The **3 key focus areas** of BergHOFF for a sustainable tomorrow.

REUSE

Our qualitative products are designed in a way to improve the overall product lifespan, where reusability of products is a key objective for a sustainable tomorrow.

REDUCE

Reducing energy consumption: We strongly believe in an environment of saving energy, efficiency and time. All of BergHOFF's cookware is incredibly energy-efficient due to the qualitative base for a quick and even heat distribution, resulting in time efficient cooking and avoids burned edges. You save energy, time and money.

Reducing plastics in packaging: We also reduce plastics in our packaging, such as poly bags and plastic laminations, to help the climate, as long as the safety is guaranteed.

RECYCLE

We keep 'design to recycle' in mind for both our products and packaging.

Recycling packaging: Most of our paper packaging is 100% recyclable and contains no plastics. We intend to have a FSC certified paper-based packaging which is 100% recyclable.

Recyclable or recycled materials: The majority of our new products are made with recyclable and/or recycled resources.

Watch video

Together we can make a difference!

A woman with long blonde hair, wearing a red sweater and blue jeans, stands in a kitchen. She is smiling and holding a silver fork with a red cherry tomato on it. The kitchen is filled with various items: a sink with a faucet, a wooden shelf with potted plants, a light blue refrigerator with papers on it, a wooden knife block, a roll of paper towels, a black frying pan with food, a white bowl with vegetables, a green-lidded pot, and various fresh fruits and vegetables like a pineapple, bananas, and leafy greens. The text "KITCHEN ACCESSORIES" is overlaid on the right side of the image.

Full steam ahead!

If healthy cooking is high on your priority list, this collapsible steamer insert is a must-have in your kitchen. It turns a 24 cm pot into a steamer, so you can easily steam your veggies, fish, ... and enjoy a healthy meal. Thanks to the ingenious design, you can also use the silicone insert to cook your pasta in a stockpot and then easily strain it by simply lifting the insert out of the pot. When you're done cooking, the dishwasher will take care of the clean-up and you can just fold the insert for easy, space-efficient storage.

- Turns a 24 cm pot into a steamer
- Can also be used to strain pasta
- Can be used as a strainer insert to boil and strain your ingredients
- Energy-efficient cooking by multi-level cooking: steamer in combination with pot
- Rim made with recycled plastics
- Folds for space-efficient storage
- Perfect for healthy cooking

Grate minds think alike!

Spices, fruit, veggies, chocolate, ... whatever you want to grate, slice or shred, it's easy with the Leo graters. The different blades of the paddle graters allow you to choose the right grater for every type of food while the box grater conveniently combines 4 different blades so you can grate, slice and shred a wide variety of ingredients with a single grater.

The ultra-sharp graters all have an etched blade for optimal performance, ensuring you can grate or shred faster and more efficiently to give your final dish that professional look. Plus, each grater has an ergonomic soft-touch handle for a safe and comfortable grip.

We have made grating easier for you with an anti-skid base for extra stability and even integrated bowl notches, so that you can choose whether to grate on a plate or in a bowl.
